OVERVIEW

Experienced Front-end developer with advanced knowledge in ReactJs, Javascript, and tailwind.css. Proven track record of delivering high-quality and responsive web applications for various clients. Skilled in creating user-friendly interfaces and optimizing website performance. Strong problem-solving skills and ability to work collaboratively in a team environment. Passionate about staying updated with the latest technologies and trends in the industry.

WORK EXPERIENCE

FRONT END DEVELOPER - KONIC TECHNOLOGIES (02-March -2024-Present)

- As a front-end developer with 6 months of experience at KONIC TECHNOLOGIES, I have developed my skills in ReactJS, Redux Toolkit, JavaScript, TypeScript, Tailwind CSS, HTML, CSS, Bootstrap, and Material UI (MUI).
- I contributed to various projects that supported the company's growth and development.
- My hands-on experience includes building responsive and user-friendly web applications and collaborating with cross-functional teams.
- I am continuously learning to stay updated with the latest industry trends.

PROJECTS

COFFEE SHOP WEBSITE

Project Link: <https://sikandartea.edgecompute.app/>

- Created a coffee shop website using ReactJS with functionalities like selecting restaurants and adding desired items from the items page.
- Added responsiveness to the website to support various screen sizes, from smaller screens to large screens, using Tailwind CSS.
- Implemented a checkout page with a QR code that redirects to UPI apps.
- Used React Router for navigation between pages.
- Fetched data asynchronously from the Supabase database using its API.
